Research Interests

Human-Computer Interaction; Accessibility; Human-AI Interaction
AI-Supported Creative Expression

Education

Ewha Womans University	Seoul, Korea
Master of Science in Computer Science and Engineering	2022-2024
Thesis: Understanding the use of AI-Based Audio Generation Models for Video Editing	
Advisor: Uran Oh	

Ewha Womans University	Seoul, Korea
Bachelor's degree in Computer Science and Engineering	2016-2022

Research Experience

Human Computer Interaction Lab, Ewha Womans University

Researcher (Advisor: Uran Oh)	2022-2024; 2025-Present
-------------------------------	-------------------------

- BLVCameraAI (Accessible AI Photography): Developed an iOS research prototype for intent-aware, conversational guidance and post-capture photo evaluation.
 - Completed a formative study with six blind and low-vision participants across 18 task sessions to investigate AI-assisted photography practices.
 - Analyzed interviews and interaction logs to identify guidance breakdowns and intent-alignment challenges; derived implications for accessible AI guidance.
 - ForceKeyboard: Designed a 26-participant study of eyes-free text entry; conducted interviews and analyzed study data.
 - AscleAI: Designed a user study of an LLM-based clinical note system; implemented the RAG component, conducted interviews, and analyzed study data.
 - MuseForge: Independently designed, conducted, and analyzed a study comparing text-to-audio generation with music search; built an LLM-assisted prompting prototype.
 - TogGrid: Designed a study and implemented a tactile interface for shape understanding and reproduction by visually impaired users; conducted interviews and analysis.
-

Manuscript Under Review

BLVCameraAI: Accessible AI Photography
Manuscript under review at CHI 2027.

Research Methods & Technical Skills

Programming: Python, Swift, Java, JavaScript, C, SQL

Methods: Interviews, formative studies, usability testing, think-aloud, surveys

Analysis: Qualitative coding, interaction logs, affinity mapping, task performance

Prototyping: iOS/SwiftUI, Android, multimodal AI, LLM/RAG, Figma, Unity

Awards & Scholarships

HSpace HRR Scholarship	Feb 2026
Boeing Scholarship Recipient	Aug 2024
Grand Prize, Ewha Graduate Student Convergence Research Forum	Feb 2023
Ewha Womans University Admissions Scholarship for Graduates	Mar 2022
Outstanding Capstone Design Project Award	Dec 2019

Teaching Experience

C Programming	Spring 2023
Graduate Teaching Assistant; facilitated lab sessions and graded assignments	
Artificial Intelligence	Spring 2023
Graduate Teaching Assistant; supported student projects and coursework guidance	
Automata Theory	Fall 2022
Graduate Teaching Assistant; held tutorial sessions and assisted with exam preparation	
Linear Algebra	Spring 2022
Graduate Teaching Assistant; guided practice sessions and graded assignments	
Linux Workshop	Summer 2019
Undergraduate Teaching Assistant; assisted lab practice and grading	

Academic Service & Selected Activities

Student Volunteer, SIGGRAPH Asia 2025	2025
Member, Game Development Club KING	2017–2022
Collaborated on a student tycoon game released on Steam.
